**RE: Reference: copy-1963782 - Apprentice Electrician**

I am excited to express my interest in the **Apprentice Electrician** position advertised on Careers24. In addition to Matric, I have also completed my N1 - N6 Electrical Engineering technical certificate at TVET College, Durban Campus, and would like to be considered for this opportunity with your client. In the current market climate, it is inspiring to hear of companies growing and therefore looking for additional talent to join the team as an apprentice electrician.

Over the past four (4) years during my studies coupled with working part time, working and job shadowing a licensed electrician on ad hoc jobs, I have acquired a good work ethic, attention to detail, some practical experience in testing malfunctioning equipment, identifying defects, troubleshooting, repairing equipment, which I have loved.

I speak IsiZulu and English fluently and obtained my Code 8 driver's license in 2019.

Thank you for your valuable time and consideration, and I look forward to hearing back from you, Please do not hesitate to contact me on the mobile number provided should you require any further information other than that already provided or to set up an interview.

Sincerely,

Name Surname
